BIO

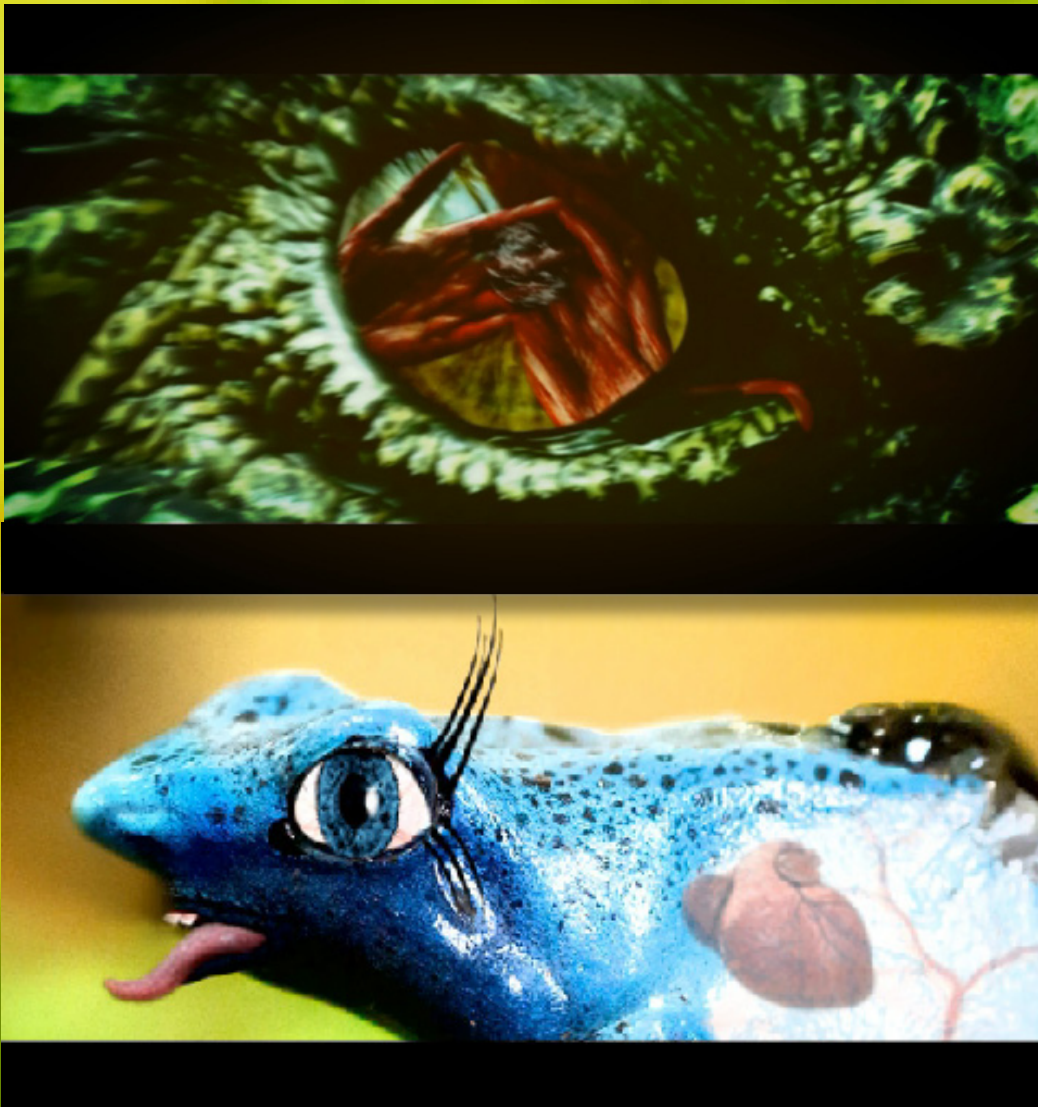

PAUL JONAS KINNUNEN

Writer/Songwriter, Director,
Producer, Animator and Musician

I made my first animation for my graduation during my senior year studying graphic design in Inveon, Porvoo, Finland. A year after, i attended a documentary film course. Since then i've had a passion for film and filmmaking. I'm open to deals/signings with record companies aswell, as distribution for the music video.

The creativity sparking subjects continue to be:
Originality, symbolism, philosophy and the unknown in itself.
